

SUMMARY

A dynamic Software Developer with a Bachelor's in Business and Information Technology, specializing in creating robust, scalable software solutions. Proficient in a wide range of technologies, including React, Ruby on Rails, and database management. Proven ability to collaborate effectively within cross-functional teams, deliver high-quality code, and drive continuous improvement in software performance. Committed to leveraging technical skills to solve complex problems and contribute to innovative tech projects.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3, Bootstrap, SCSS

Back-End: Ruby, Rails, MySQL, PostgreSQL, PHP, Laravel

Tools & Methods: Git, GitHub, CI/CD, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Problem-solving, Teamwork, Time management, Attention to detail, Communication, Continuous Learner

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

March 2023 – Present

Full Stack Web Developer

Mastered topics in both front-end and back-end technologies while building 20+ projects independently and as part of a pair programming group. Below are just a few:

- **Virtual Currency Tracker:** Created a React/Redux-powered single-page application that tracks real-time market values of cryptocurrencies, featuring comprehensive descriptions and dynamic updates.
 - [Visit site](#)
- **BookStore Manager App:** Developed a user-friendly application designed to help users effortlessly organize and manage their personal book collections. The app allows tracking of reading progress, adding new books to the collection, and removing books as needed, built with React, Redux, and CSS.
 - [Visit site](#)
- **Anime-Data App:** Developed a responsive web application for anime fans, offering extensive data like rankings, synopses, and user-generated content integration through features such as comments and likes via a RESTful API.

MICROVERSE

December 2022 - September 2023

Mentor (Volunteer)

- Provided mentorship to junior web developers, improving their code quality by 25% through systematic code reviews and actionable feedback.
- Enhanced learning outcomes by advising on best practices and strategies for sustained motivation and success in the program.
- Conducted regular progress assessments to track mentees' development and provide tailored guidance for areas of improvement.

EDUCATION

MICROVERSE

April 2022 – September 2023

Remote Full Stack Web Development Program, Full-Time

- Completed 1300+ hours in intensive, hands-on training in algorithms, data structures, and full-stack development with Ruby, Rails, JavaScript, React, and Redux.
- Honed remote collaboration skills through daily standups and pair-programming with international teammates, leveraging GitHub and industry-standard git-flow.

TECHNICAL UNIVERSITY OF MOMBASA

September 2017 – July 2022

Bachelor's degree in Business and Information Technology

- Dedicated over 1300+ hours to hands-on software development, focusing on HTML5, CSS3, and PHP.
- Gained practical experience in database design, optimization, and security, implementing security measures and compliance standards to safeguard organizational data.
- Specialized in leveraging IT tools for data analysis and decision-making, supporting business strategies and operational efficiency.
